Company: InfoSmart Technologies Inc

Location: Atlanta, Georgia

Category: other-general

The Georgia Professional Standards Commission will be transitioning many of its applications to a SaaS, with a project start date in July/August of this year. This project will consume much of the time of current staff. As a result, the agency is seeking an experienced developer to join the team to support applications during the transition.

Knowledge of how to develop for cross-browser compatibility is required. Knowledge of content management is required. The candidate must be able to work on the back end with limited help and create business logic modules if necessary. Create and maintain basic technical requirements documentation, maintain developer's notes, and create technical product documentation. Must be a self-starter who can manage multiple tasks, meet deadlines, and adapt to changing project requirements.

Responsibilities

- Design and develop responsive and adaptive software across all platforms and devices, build robust applications and tools across the full Microsoft stack (back-end/middleware/front-end).

- Work on existing software, including refactoring and redesigning legacy applications.

- Analyze business requirements, document technical guidance, and promote continuous integrated development by working with other developers and IT analysts.

- Collaborate with other developers, business users, and key stakeholders.

- Document the code base where necessary. Maintain source control periodically with updates.

Requirements

- 5+ experience in C#.NET, Visual Studio 2010+, JavaScript, AJAX, SQL Server 2012+ (TSQL, SSIS, SSRS, etc.), Classic ASP, VBScript, ASP.NET 4.0+, ASP.NET MVC, JQuery, TFS 2015, developing multi-tier web-based applications.

·3+ years of thorough knowledge of browser compatibility issues for all platforms/major browsers is necessary

·Experience developing and maintaining Rest APIs, Web APIs, windows services, and traditional webservices.

·Experience in consuming and creating services integrating with SAAS solutions or other 3rdparty applications

·Collaborating with management, business analysts, and users to develop intricate interfaces that achieve project objectives.

·Experience performing complete application testing and related documentation

·Participating in all phases of the project lifecycle, from initial design to production deployment

·Ability to work in a fast-paced, evolving environment

·Excellent written and oral communication skills

·Bachelor of Science in Computer Science, Mathematics, or a related field or equivalent experience.

Additional Qualifications, as a plus:

·MS Azure, AWS (Amazon Web Services)

·Experience in the following is a plus: Angular, Agile Development Methodology, Kendo UI

·Experience in the government sector desired

·Project management skills a plus.
