

## Airworthiness Engineer (Level 2)

[Apply Now](#)

Company: Lockheed Martin

Location: United States

Category: architecture-and-engineering

### Job Description

#### We are Lockheed Martin

At Lockheed Martin Aeronautics, we're taking innovation to the next level. From designing the most advanced air vehicle to designing aircraft that defies gravity, our engineers live on the cutting edge of technology. Never have the opportunities for a technical career been so limitless.

Primary responsibilities will be with the Fighter Airworthiness Team. Support business needs and enable innovation and increased efficiencies within the E&T organization.

Responsibilities can include management of Airworthiness artifacts and data requirements to support Airworthiness cycles for development test, production, and sustainment/retrofits.

Candidate will be responsible for ensuring data integrity of artifacts.

Must be a U.S. Citizen; this position will require a government security clearance. This position is located at a facility that requires special access.

#### What's In It For You

Our employees play an active role in strengthening the quality of life where we live and work by volunteering more than 850,000 hours annually. Here are some of the benefits you can enjoy:

- Medical
- Dental
- 401k
- Paid time off
- Work/life balance
- Career development
- Mentorship opportunities
- Rewards & recognition

**This position is in Fort Worth, TX**

Desired skills

Aircraft airworthiness certification experience.

Experience with MIL-HDBK-516 criteria.

Experience multi-tasking in a dynamic work environment.

Strong MS Excel & PowerPoint skills.

Experience working with cross functional teams and frequent status reporting to management.

Strong organization and coordination skills with high attention to detail.

Exceptional written and verbal communication skills.
