Company: Moffitt Cancer Center

Location: Tampa

Category: life-physical-and-social-science

At Moffitt Cancer Center, we strive to be the leader in understanding the complexity of cancer and applying these insights to contribute to the prevention and cure of cancer. Our diverse team of over 9,000 are dedicated to serving our patients and creating a workspace where every individual is recognized and appreciated. For this reason, Moffitt has been recognized on the 2023 Forbes list of America's Best Large Employers and America's Best Employers for Women, Computerworld magazine's list of 100 Best Places to Work in Information Technology, DiversityInc Top Hospitals & Health Systems and continually named one of the Tampa Bay Time's Top Workplace. Additionally, Moffitt is proud to have earned the prestigious Magnet® designation in recognition of its nursing excellence. Moffitt is a National Cancer Institute-designated Comprehensive Cancer Center based in Florida, and the leading cancer hospital in both Florida and the Southeast. We are a top 10 nationally ranked cancer center by Newsweek and have been nationally ranked by News & World Report since 1999. Working at Moffitt is both a career and a mission: to contribute to the prevention and cure of cancer. Join our committed team and help shape the future we envision.

Summary

MRI Physicist - Faculty Position

Under the general direction of the Department Chair, Diagnostic Imaging and Interventional Radiology, Clinical Physics, and the Moffitt Research Leadership, the MRI Physicist will assume the role of a senior scientist and play a critical role in optimizing MRI imaging for both clinical and research tasks within the clinical and pre-clinical activities of the Department of Radiology. Clinically, this position will report to the Chief of Medical

Physics.

The MRI Physicist/Faculty Medical Physicist (FMP) is a positive, effective member of the Diagnostic Imaging Faculty and Radiology Research teams, fostering a customer/patient focused perspective and ensuring a strong commitment to organizational service standards.

The individual maintains collaborative multi-disciplinary relationships within and outside of the Department. A Faculty Medical Physicist (FMP) has the predominant responsibility of advancing the academic vision and mission of the Moffitt Cancer Center and the Department of Diagnostic Imaging and Interventional Radiology by active participation in clinical care, educational programs, and innovative research.

The MRI Physicist will be devoted to developing, implementing, evaluating and applying novel MRI image acquisition and analysis techniques for human high-field and ultra-high field MRI scanners with emphasis on body imaging. Other related duties as assigned by appropriate Leadership.

Requirements:

- Successful candidates must have a PhD in Medical Physics, Physics or closely related field, be eligible for the American Board of Radiology in Therapeutic Radiologic/Medical Physics or equivalent.
- Formal coursework in anatomy, physiology, or other related biological science.
- Three (3) to five (5) years experience and proven knowledge of MRI physical principles, including clinical applications and safety.
- Prior experience and knowledge of MR accreditation and compliance testing.
- Strong communication and time management skills.
- Track record of collaborative clinical and research work.

Receive personal and professional rewards including a comprehensive total compensation and benefits package. In addition, but not limited to:

Base salary plus yearly incentive.

Continuing Medical Education (CME) & Professional Development Funds (PDF).

Promotion/Tenure & advancement opportunities.

Leadership opportunities.

Employer paid malpractice insurance.

In-house wellness programs.

Relocation assistant funds.

Moffitt Cancer Center & Research Institute, Florida's only NCI-designated Comprehensive Cancer Center, is a rapidly growing center affiliated with the University of South Florida.

The Cancer Center is comprised of a large ambulatory care facility, a 206-bed hospital, with a 36-bed blood and marrow transplant program, 20 state of the art operating suites, a 30-bed intensive care unit, a high-volume screening program, and a basic science research facility.

The Moffitt Research Institute (MRI) is comprised of approximately 160 Principal Investigators, 58 laboratories, and 306,000 square feet of research space.

Faculty of the Moffitt Cancer Center are eligible for academic appointments at the University of South Florida College of Medicine Academic rank is commensurate with qualifications & experience.
