Description: This auxiliary support staff person combines essential student supervision responsibilities with after school program preparation and other administrative detail as needed to create a unique position within our school community.

This person will interface with students in grades PK to 4 during the school day, and ideally has a comfort level or experience with children ages 4-11. The Pike Plus after-school program includes supervision of students in grades PK to 9. Programming during Pike Plus may include outdoor play, supervised study hall, indoor crafts and games.

Whenever supervising children, this person will be on a team of one to two other Pike staff or faculty, with the primary function being to provide active supervision to ensure a positive and safe environment for all students during school day outdoor recess, Pike Plus, and other "no school" day offerings.
