Company: eTeam Inc.

Location: Raritan, New Jersey

Category: management

Proven experience as an SAP Solutions Architect, specifically in SAP BTP implementation projects. Strong knowledge and hands-on experience with SAP BTP components. In-depth understanding of SAP BTP architecture, including account models, governance models, integration patterns, operations models, security models, and data management.

Proficiency in designing and developing scalable solutions using SAP BTP services and APIs. Familiarity with agile methodologies and project management practices. Excellent problem-solving skills with the ability to analyze complex business requirements and translate them into technical solutions. Strong communication and collaboration skills to effectively work with cross-functional teams and stakeholders. SAP certifications in relevant areas (eg, SAP Certified Development Professional - SAP Cloud Platform) would be a plus.
