## Business Analyst / Project Manager - eTrading Credit

[Apply Now](#)

Company: QUANTEAM - North America (RAINBOW PARTNERS Group)

Location: United States

Category: other-general

As the founding entity of RAINBOW PARTNERS, Quanteam is a consulting firm specializing in the fields of Banking, Finance, and Financial Services. Guided by our core values of closeness, teamwork, diversity, and excellence, our team of 1,000 expert consultants, representing 35 different nationalities, collaborates across 10 international offices: Paris, Lyon, New York, Montreal, London, Brussels, Geneva, Lisbon, Porto and Casablanca. We are seeking a skilled Business Analyst/Project Manager for a client, a major investment bank, with prior experience managing projects in the Fixed Income eTrading space, preferably within Credit or Rates. Responsibilities: Gather user requirements and develop suitable solutions aligned with business and IT strategies. Provide guidance on best practices for eTrading platform architecture. Create detailed specifications, ensuring validation by users, peers, and stakeholders. Develop and manage project plans, ensuring effective communication of progress. Collaborate with production support teams for the rollout of changes and new functionality. Analyze and project manage developments related to pricing and electronic markets applications. Provide third-line support for applications used by front-office users. Work as part of a global development and business analysis team. Collaborate closely with the Global QA team, participating in end-to-end testing and functional UAT. Required Qualifications: Previous experience implementing integrated e-Trading platforms and workflows. Strong problem-solving and analytical skills, with excellent written and verbal communication abilities. Demonstrated ability to deliver IT development projects, preferably in a front-office environment. Proven ability to analyze and document business and functional requirements. Proficiency in SQL, with experience working with SQL

Server and/or Oracle. Previous experience with the FIX messaging protocol. Strong interpersonal skills, with the ability to collaborate effectively with different teams. Ability to work within a global team. Experience working in a technology team at a large global investment bank. Experience working in a Fixed Income Front Office Environment, with a preference for Credit. Preferred Qualifications: Knowledge of Credit Products such as Corporate Bonds, CDS, CDS Index, and Secondary Loans, and their trade processing. Familiarity with Credit ETF Products and their trade processing. Understanding of D2D and D2C cash order management and pre-trade workflows. Strong project management skills, including experience managing regular steering meetings with business sponsors and stakeholders. Working knowledge of ION Trading Services (Connectivity, STP, RFQ, and MMI). Knowledge of SDLC and prior experience working on software development projects. Familiarity with modern source control systems such as Git, SVN, Perforce, or Source Safe. Bachelor's degree in an applicable subject (Engineering, Computer Science, Math, etc.).
