Category: production

TGC Search is partnered with one of our top clients in Milwaukee, WI looking to add their next CNC Maintenance Mechanic to the team in a direct hire/full-time position. Below are the current shift offerings – choose what works best for you!

Shift 7am – 3pm
Shift 3pm – 12am
Shift 11pm – 7am- 12-hour shifts for 3 days a week with 3 days off. Next week 12-hour shifts for 4 days a week with 4 days off. Hours are 5pm-5am

As a CNC Machine Technician and play a vital role in ensuring the smooth operation of our equipment. Here's what you'll be doing:

Key Responsibilities: Ensure adherence to company safety protocols while performing a range of tasks related to diagnosing, repairing, and calibrating CNC machines and equipment. Install and maintain mechanical and electrical components, troubleshoot mechatronic systems, and operate machine shop tools and equipment. Utilize welding and fabrication skills to create or repair parts as needed. Maintain automation systems and perform modifications to devices and systems as required. Keep detailed documentation and records of all maintenance and repair activities.

Qualifications: Education: High School diploma or equivalent (GED) is required. Minimum of 5 years experience servicing CNC equipment required. State Indentured Journeyman Machine Repair Certification preferred

Experience: Demonstrated mechanical and electrical repair knowledge and skills are essential. If you're ready to contribute your expertise to a dynamic team environment, we encourage you to apply and become a part of our growing team!
