Company: HexaQuEST Global - Healthcare

Location: Glenwood Springs, Colorado

Category: other-general

Job Description:

Do you take pride in your vascular sonographer skills? Do you like work with autonomy but still want to be a part of an amazing team? We are looking for you!

Valley View's Cardiology Department/Hybrid Cath Lab is located in Glenwood Springs, Colorado! The Western Slope of Colorado.....literally get off work and go play in the mountains - rafting, fishing, hot springs pools, mountain biking, camping, hiking, parasailing, restaurants, shopping, read a book, live music, festivals, you name it! Located on the Colorado River and I-70

Responsibilities

Assist our physicians with Enclose, Baratheia, Venereal, EVLTs, Ultrasound guided Sclerotherapy, and RF ablation procedures.

Perform venous insufficiency and venous mapping ultrasounds of the lower extremities.

Perform upper and lower venous duplex and arterial duplex studies.

Perform carotid ultrasounds.

Prepare thorough reports on findings.

Clearly communicate findings to physicians.

Enjoy the ability to work independently or with minimal supervision, as well as enjoying working as a strong team member.

Maintain sonographer equipment.

Able to act as a patient advocate.

Qualifications

Current ARDMS Registered Vascular Technologist - (RVT) or CCI Registered Vascular Specialist - (RVS)

CCI Registered Phlebology Sonographer - (RPhS) is a plus.

Prior experience performing all aspects of venous and arterial ultrasound with additional training in venous insufficiency examinations.

Basic understanding of medical necessity as it relates to vascular ultrasound testing; obtaining signed orders from referring physicians, verifying proper indications for exams, etc.

Interpersonal communication skills are a must

Possess a high degree of respect and confidentiality

Highly organized

Fun, Friendly and Trust-inspiring

Candidates must have a minimum of 3 year's experience in related areas mentioned in responsibilities.
