Description

SUMMARY:

The person in this position operates track switches, couples and uncouples cars, and performs other duties associated with the movement of trains, cars, and engines in rail yards and on the main railroad. He or she receives, relays, or acts upon oral, written, or radio instructions from the dispatcher, yardmaster, or other personnel indicating the switch movement, placement, or delivery of railroad cars and/or a train.

RESPONSIBILITIES:

Conduct railcar and train movements; signal crew members for movement of the engine or train using lantern, hand, and/or flag signals or radio to indicate when to start, stop, back up, or set or release air brakes

Observe, interpret, and relay arm, lantern or radio signals and all other indications affecting movement of a train

Operate track switches (visually check switch condition and direction) to change the direction of the engine or cars within yard limits or on the main railroad; apply or release hand brakes to switch or perform other duties

Read and understand the book of rules, timetables, bulletins, train orders, waybills, placards, safety instructions, and other written or printed material

Prepare required daily reports and switch lists, either manually or with a computer; fill out forms, including train orders

Inspect the condition of the train and equipment in movement and while stationary

Couple air and electrical connections between locomotives when making up trains

Assist with other projects and perform other duties as assigned

REQUIRED SKILLS AND/OR EXPERIENCE:

Two years of work experience

Railroad or other relevant industry experience is a plus

Ability to work in a 24/7 work environment and in outdoor working conditions

REQUIRED EDUCATION AND/OR CREDENTIALS:

GED, high school diploma, or an equivalent combination of education and/or work experience

Valid driver's license

This position is employed by the specific entity set forth in the job posting.
