Electrical Engineer

[Apply Now](#)

Company: Top Prospect Group

Location: United States

Category: production

HIRING! If you are an Electrical Engineer with 5+ years of experience...we'd like to connect with you! If you are a problem solver, detailed oriented, excellent communicator, self-driven to achieve results, have excellent collaboration habits, and the following also describes you, your experience, knowledge, and education, apply today!

Experience/Knowledge/Education: Experience with microcontroller-based board design and mixed signal I/O. Experience using test instruments, oscilloscopes, signal generators, DMM's, network analyzers. Experience designing analog, digital, power and charging circuits for precision scientific instruments. Experience with vendor interfacing, maintenance, management and dealing with CMO's. Experience working on novel product design as well as test systems for power up, programming and circuit debugging. Experience creating and tracking BOM's, and everything that is necessary to faithfully reproduce the design on the manufacturing floor. Ability to author module requirements, test protocols and test reports. Ability to author and maintain Work Instructions for design transfer to manufacturing. Must have worked on systems spanning dc to 50MHz. Must be proficient with Altium schematic design and layout experience in revision control. Basic understanding of RF systems preferred, not required. MS Electrical Engineering. You do not want to miss such an exciting opportunity to join a great organization! Apply today!!
