Embedded Software Engineer - Linux Kernel (SpaceX Spin-Out)

[Apply Now](#)

Company: Oho Group Ltd

Location: United States

Category: other-general

US CitizenA Space-X Spin Out is looking for an Embedded Software Engineer; Linux Kernel expert to join their R&D team. My client is a 10 person Space Start-Up who specialise in next-gen RF Products! Some of their products have already been to space! The team is elite and they have big expansion plans over the next 12-18 months! We are looking for someone who has owned the embedded software for a product/program and made it a success! We are looking for an Embedded Engineer with 2-5 years experience who knows buildroot, uboot, the linux kernel well, and should also feel comfortable working more directly with the hardware (userspace drivers for FPGA cores and dmas, etc) Due to the nature of the work - we need top academics & a US Citizen If you want to work with a top-tier Engineering team then get in touch!
