

## Engineering Technician II

[Apply Now](#)

Company: Tucker Parker Smith Group (TPS Group)

Location: Rochester, Minnesota

Category: other-general

Engineering Technician

Location: Rochester, MN (on-site)

12-Month Assignment (potential to convert / extend)

Pay: \$30-33 / HR

Our client, a Fortune 200 computer hard drive company, is seeking an Engineering

Technician to join their team. This individual will support activities to maintain the operational readiness of the Reliability Test Lab within the Rochester, MN facility.

#### Essential Duties and Responsibilities:

Responsible for support of day-to-day work activities, such as loading/unloading drives, test starts, other miscellaneous tasks.

Work highly independently for activities including debug, repair, and maintenance all lab equipment: form entry, record keeping, tracking and control for equipment calibration, equipment inventory and department purchasing activities.

Assist with new equipment layout, design, installation and bring up.

Daily high-level check all equipment is operational.

General updates on equipment status, any problems, due dates

Responsible for ordering parts and supplies.

## Education & Experience:

Bachelor degree or Associate degree in technical field (CS, EE, ME, etc.) is required; with 3+ years of work experience.

Experience specifically in an Engineering/Reliability test environment.

Dexterity and strength to install 16x20 mm components into spring loaded connectors.

Ability to lift 25 pounds from floor to height of 6 feet

Basic PC usage skills (Win/Mac, Office Products, mail clients, ...)

Basic lab equipment (Power supplies, oscilloscopes, multimeters, ...)

Basic engineering skills (ability to understand schematics, layout, ...)

Desired Skills:

Working knowledge of Linux

Working knowledge of PCIe/NVMe

Experience in lab operations.

Equipment calibration

Lab inventory

Experience with SSD Devices

Please submit your resume in Word or PDF format to be considered.
