Company: Easton Energy LLC

Location: Houston

Category: other-general

Easton Energy LLC is a Houston based midstream company focused on developing infrastructure assets that support the transportation, storage, and processing of hydrocarbons. Easton's primary focus is the transportation and storage of natural gas liquids (NGL), crude oil, refined products, and petrochemicals. This position is based in Houston, Texas.

Position Summary:

The Health, Safety, and Environmental (HSE) Manager reports to the VP, HSE & Regulatory (HSE&R), and offices out of Easton's Houston, Texas field office. This working manager position serves as the subject matter expert on HSE, security, and emergency response issues and provides the support necessary to maintain an injury and incident-free work environment, ensure compliance with applicable laws and regulations, and develop employee competency regarding HSE issues. The HSE Manager will assist Easton's Operations and Engineering Departments integrate HSE&R requirements into practice.

Principle Duties & Responsibilities:

Assist in the development, implementation, and improvement of HSE&R programs.

Identify and implement solutions to eliminate occupational safety risks.

Own and ensure compliance with Easton's HSE Manual and associated processes.

Participate in the development and implementation of safety requirements in various project related activities (pre job planning, P&ID reviews, 3D model reviews, PHA's,

PSSR's, commissioning plan reviews, etc....)

Develop and present monthly safety-meeting topics.

Maintain HSE&R records.

Lead or participate in incident investigation teams.

Provide environmental field support via waste sampling, profiling, and disposal coordination.

Maintain air emission & release (venting/purging) records.

Coordinate emergency response & security drills, training, and incident response activities.

Support other pipeline and storage regulatory programs as requested.

Education & Experience:

Bachelor's degree in engineering, health, safety, or related technical field desired.

Associate degree will be considered with additional work experience.

Minimum of 5 years HSE experience in the midstream pipeline, underground storage, and/or onshore energy industry required; petrochemical manufacturing experience a plus.

Knowledge, Skills & Abilities:

Working knowledge of OSHA & TCEQ regulations required; knowledge of PHMSA and RRC regulations highly desired.

Experience in maintaining and continuously improving HSE management systems.

Results orientated with solid problem-solving skills.

Passion for effectively and expeditiously addressing HSE issues.

Ability to communicate effectively at all levels of the organization.

Must be self-motivated and directed.

Ability to properly prioritize among multiple initiatives and challenges.

Proficient with Microsoft Office, particularly Word, Excel and PowerPoint.

Physical Demands and Working Conditions:

Assigned office location is at the company's field office in Houston, Texas; regular travel to field sites spanning between Markham, Texas and Iowea, Louisiana is expected.

Must be able to work under field conditions, which may include regular exposure to heat, cold, and other adverse weather conditions.

*Easton Energy LLC is an equal opportunity employer and does not discriminate based on age, gender, disability, military status, race, religion, marital status, or any other protected classes under the law.
