Excel Developer

[Apply Now](#)

Company: ConsultNet

Location: Newport Beach, California

Category: other-general

Our client is searching for an MS Excel Rapid Application Developer to support and develop the Office 2016 applications used by Portfolio Managers, Traders and Risk Managers.

Essential Job Functions

Key responsibilities:

Typical end-users have intermediate MS Excel/Excel VBA skills and require assistance adding advanced functionality to their workbooks.

You will be located in the Front Office and will respond to advanced MS Excel queries about functionality required during the trading day with a priority on the Trade Floor, although you might be asked to assist other business areas at times, so the ability to prioritize is

important. You will need to be responsive and tenacious with a 'can do' attitude. You will also have longer-term development projects of your own.

Required Skills And Experience

10+ years of experience supporting and developing in MS Excel and MS Excel VBA in a financial services Front or Middle Office role.

Ability to understand business requirements and translate them

Superb problem solving skills

Strong interpersonal and communication skills

Thriving under pressure

Excel front end

Advanced native functions/formulas, array formulas

Charting, data visualisation

Workbook design and optimisation, calculation trees

Pivot tables/listobjects/query tables

Names, custom properties

Data validation and conditional formatting

External data connections (including Oracle)

Power Query/M-Language

VBA

The VBA library and language syntax, the Excel object model

Debugging, error handling, logging

Classes and interfaces

Automating other Office applications from MS Excel

Developing sophisticated VBA Excel add-ins (.xlam)

Ribbon UI, XML

Microsoft Scripting Runtime

VBA UDFs

ADO

Userforms

Windows API (32/64-bit declarations), conditional compilation

Oracle to the level of aggregate functions and joins in SELECT statements. You will not be developing in SQL but must be able to understand the SQL that end-users have written.

Desirable Skills And Experience

Bloomberg and Bloomberg Excel Tools

Office 365, version compatibility and 32/64 bit considerations

Some Python and or C# .Net

Experience using GitLab source control

Windows 10, including basic knowledge of infrastructure to assist in trouble-shooting

IT Help Desk experience
