Company: TRS Staffing Solutions

Location: Irvine

Category: other-general

### **Job Title: Mid-Senior Level Geologist/ Hydrogeologist**

We currently seek **Mid to Senior Level Geologist/ Hydrogeologist** a direct hire basis within our client's team of industry leaders in the environmental space. The ideal candidate will possess 5 to 10 years of relevant experience and hold professional registration in California as a Geologist (PG) or Certified Engineering Geologist (CEG) or Hydrogeologist (CHG). This individual will manage a diverse range of environmental projects, spanning from small to regional in size. The Mid to Senior Level Geologist will devise and execute technical strategies for site characterization activities, craft written proposals, manage budgets, and maintain clear communication with Project Managers to ensure smooth execution. This individual will play a crucial role in the efficient management and successful completion of projects while fostering skill development within the team. *This position is based out of Irvine, California.*

### **Job Requirements:**

Managing small to regional multi-disciplined projects

Developing and implementing technical approaches for completing site characterization activities

Preparing written proposals, managing project budgets, and communicating with project managers

Providing technical training and support to associate-level staff to ensure field tasks are completed with precision and consistency

Disposition of non-conforming products as per engineering training matrix.

**Qualifications:**

5 to 10 years of related work experience

Master's degree or higher in Geology, Geologic Engineering, or similar (preferred)

Professional registration in California as a Geologist (PG) or Certified Engineering Geologist (CEG) or Hydrogeologist (CHG)

Experience with completing fieldwork and managing projects under the direction of local or state regulators

Familiarity with regulators including but not limited to waste characterization/disposal, DWR CA Well Standards, RCRA, CERCLA (is a plus)

Experience overseeing complex environmental drilling programs and sampling environmental media during preliminary investigations and subsequent investigations necessary for lateral and/or vertical delineation

Extensive field experience with overseeing the installation of large diameter water supply wells, injection wells, extraction wells, and performing and managing aquifer step drawdown and constant rate aquifer tests following well installation

Hands-on experience with using a variety of discrete-depth sampling tooling during drilling (i.e., Hydropunch, SimulProbe, installation of temporary wells)

Experience with many of the following drilling methods: roto-sonic, direct mud rotary, flooded reverse, ARCH, hollow stem auger, and direct push

Evaluating downhole geophysical logs in conjunction with borehole logs, driller logs/observations, and sieve results, to develop and/or collaborate with teams of geologists or regulators in conjunction with well design

Ability to multi-task in a fast-paced environment both in the field and in the office

Must have excellent written and verbal communication skills

40-hour OSHA HAZWOPER certification

Valid driver's license and clean driving record

Ability to travel and willing to perform fieldwork

Employment Type: Direct Hire

Location of Position: Irvine, CA

Location Type: On-site

*TRS Staffing Solutions is an Equal Opportunity Employer that recognizes the value of a diverse workforce. Employment decisions are based on job related criteria and not on the basis of any unlawful criteria. We ensure equal access to employment opportunities, services, and programs.*

**To be Considered Candidates:** Must be authorized to work in the USA without sponsorship\*  
Must have legal right to work in the United States. We thank all applicants for their interest; however, only those selected for interviews will be contacted.
