## Information System Security Officer (ISSO)

[Apply Now](#)

Company: Gen3 Technology Consulting

Location: Washington

Category: other-general

About us: Gen3 Technology Consulting is an SBA-certified Woman-Owned Small Business (WOSB) providing a diverse set of technology services and solutions to federal and commercial clients. Founded in 2017, Gen3 leverages over 25 years of information technology management and leadership experience to help our clients define, plan, manage, and achieve their strategic vision while protecting their critical IT assets. We attract and retain the highest caliber of talent by supporting an inclusive work environment, cultivating growth and leadership both professionally and personally, and encouraging work-life balance. We strive to make it our priority to be compassionate, family-friendly, respectful, and flexible. Gen3's Joint Ventures, Pivotal Impact (JV with Caladwich) and VetCentric (JV with PingWind) expand our team's knowledge and expertise as we pool resources to bring federal agencies strong technical, program management, and cyber security solutions, derived by a disciplined management consulting approach.

About the role: Gen3 is looking for an Information System Security Officer to support UNICOR. As an Information System Security Officer, you'll ensure compliance with all applicable requirements, providing in-depth technical analysis for sound compliance/regulatory driven program decisions and input into the multitude of data calls, process improvements, and requirement updates that will need to be implemented throughout the organization. Location: Washington, DC

What you'll do: Implement and maintain robust information security measures to safeguard UNICOR or federal prison system data and infrastructure. Develop and enforce security policies, procedures, and guidelines in accordance with industry best practices and regulatory requirements. Conduct regular security assessments and audits to identify vulnerabilities and

mitigate risks. Provide expert guidance and support to IT teams on security-related matters, including network and system configurations, access controls, and incident response. Monitor and analyze security logs and alerts to detect and respond to security incidents in a timely manner. Collaborate with internal stakeholders and external partners to address security concerns and ensure compliance with security standards and regulations. Stay abreast of emerging threats and technologies in the field of information security and recommend proactive measures to enhance the security posture of UNICOR or federal prison. What you'll need: Bachelor of Arts or Bachelor of Science degree in a related discipline and a minimum of 5 years of related and relevant experience in information security management. CISSP (Certified Information Systems Security Professional) or equivalent. Certified Tenable.sc proficiency. Certified Trend Micro Tipping Point Security Solutions Administration. AWS Essentials for Tipping Point Administrators. Expertise in DISA STIGS compliance for network devices, servers, systems, and applications. Change Auditor for log reporting. Trustwave Db Protect with SQL and SAP servers and services. SolarWinds Logging and Event Manager. Splunk Enterprise scripting. Linux administration. Familiarity with Linux/Microsoft Windows forensic tools. Working knowledge of ELMs tool. Splunk Enterprise scripting- Expert level knowledge Solar winds Logging and Event Manager. What's desired to have: Previous experience supporting federal or state agencies, especially UNICOR, DOJ, or the prison system is highly desired. \*Position is pending contract award.
