

JavaScript Solution Architect

[Apply Now](#)

Company: Epam

Location: United States

Category: computer-and-mathematical

Description

DESCRIPTION

Are you a seasoned professional with a passion for JavaScript technologies and a knack for architecting end-to-end solutions?

Join our dynamic team at EPAM, a leading global provider of digital platform engineering and software development services.

We are seeking a **JavaScript Solutions Architect** who can align business requirements with technical constraints and industry best practices. If you are self-driven, excited by working on a diverse set of problems, and have a strong focus on results, we want to hear from you!

EPAM is a leading global provider of digital platform engineering and development services. We are committed to having a positive impact on our customers, our employees, and our communities. We embrace a dynamic and inclusive culture. Here you will collaborate with multi-national teams, contribute to a myriad of innovative projects that deliver the most creative and cutting-edge solutions, and have an opportunity to continuously learn and grow. No matter where you are located, you will join a dedicated, creative, and diverse community that will help you discover your fullest potential.

Responsibilities

Architect end-to-end solutions using JavaScript technologies

Evaluate JavaScript frameworks, libraries, and tools to recommend optimal solutions

Provide technical leadership and guidance to development teams throughout the software development lifecycle

Design and implement robust frontend architectures using JavaScript frameworks

Architect scalable and maintainable backend solutions using JavaScript technologies

Lead full stack development initiatives, integrating frontend and backend components

Optimize application performance, responsiveness, and reliability

Implement robust security measures and best practices to protect JavaScript applications

Prepare technical documentation, architecture diagrams, and best practice guides for JavaScript solutions

Requirements

Bachelor's or Master's degree in Computer Science, Engineering, or related field

Proven experience as a Solutions Architect or similar role, with a minimum of 2 years in architecting and implementing JavaScript solutions

Expertise in JavaScript frameworks and libraries, including React.js, Angular, Vue.js, Node.js, Express.js, and NestJS

Proficiency in frontend development languages and technologies, including HTML, CSS, and JavaScript (ES6+)

Experience with backend development technologies, RESTful APIs, and database systems

Strong understanding of software architecture principles, design patterns, and best practices

Excellent problem-solving skills and ability to troubleshoot complex technical issues in JavaScript applications

Effective communication and interpersonal skills, with the ability to articulate technical concepts to non-technical stakeholders

Strong leadership abilities to lead cross-functional teams and drive collaboration towards common goals

Nice to have

Certification in JavaScript frameworks or architecture

Familiarity with containerization technologies (e.g., Docker, Kubernetes)

Contribution to open-source projects or active participation in technical communities focused on JavaScript development

We Offer
