Apply Now

Company: The AES Corporation

Location: United States

Category: other-general

At AES, we raise the quality of life around the world by changing the way energy works. Everyone makes an impact every day in our small, global teams. Apply here to start an extraordinary career today.

We're glad you want to grow your engineering career with AES. We operate several power plants and renewable energy plants across the US, including Hawaii. The Engineering team is an integral part of AES. Typical Engineering roles range from design, planning, project engineering to commissioning and much more. Engineers support gas and coal power plant operations in Indiana, Ohio and California. AES also has engineering roles within renewable energy (solar, wind, hydro and battery storage). Many roles are hybrid or work-from-home with some travel expected. Qualified applicants must reside within the United States and have an undergraduate degree (a BS degree is preferred). We invite you to join our talent community within Engineering & Technical!

The AES Corporation (NYSE: AES) is a Fortune 500 global energy company which has been recognized as one of the 2023 World's Most Ethical Companies® by Ethisphere, a global leader in defining and advancing the standards of ethical business practices.

We were named in the Top Ten on Fast Company's 2023 Ranking of Best Workplaces for Innovators and certified as a Great Place to Work® in 9 countries.

We will consider you to positions such as (all levels): Civil, Electrical, Mechanical, Solar, Wind, BESS, Hydro Engineering as well as Transmission Planning, Interconnection, Performance, NERC Compliance, amongst others. We will reach out when a position that might be of your interest opens up!
