

Junior Modeler - BIM/REVIT - TS/SCI+

[Apply Now](#)

Company: Leidos

Location: Fairfax

Category: other-general

Description

Are you a Junior Engineer looking for an awesome opportunity?

Leidos is seeking a junior engineering technician to provide Building Information Modeling (BIM) support for engineers on a DoD program.

Primary Responsibilities:

Develop various engineering and technical data into models useable by engineers through Computer Aided Design and Drafting (CADD) and Building Information Modeling (BIM)

Utilize CADD/BIM systems including AutoCAD, and specifically Revit 3D modeling, and other software databases such as word processing, spreadsheets, and PowerPoint to provide support engineers.

Ensures use of CADD and Computer Aided Engineering (CAE) is consistent with sound engineering principles and practices.

Consult with project leaders to assure detailing of data is compatible with the conditions being written and to furnish information required to meet the specifications.

Confer with assignment originators as necessary to obtain additional or clarifying information, or to offer suggested revisions.

Develop, maintain and share a thorough knowledge of CADD and REVIT operational

techniques and standards.

Basic Qualifications:

Active TS/SCI security clearance with eligibility for CI Polygraph is required.

Current/active CI polygraph is strongly preferred but we have the ability to hire at the TS/SCI level for otherwise qualified candidates who are willing and able to complete a polygraph post-hire.

Must have a Bachelor's degree OR 2 years experience in lieu of degree

1-2 years of specialized experience: developing various engineering and technical data scope of designs and complexity into forms useable by engineers for civil, military projects using techniques such as Computer Aided Design and Drafting (CADD), Building Information Modeling (BIM) and other software databases.

Must live in the WMA and be willing to work in the client's Reston, VA office.

Preferred Qualifications:

Ideally your resume will demonstrate at least one year of specialized experience in the following:

Familiarity with building BIM Revit models and integrating architectural, structural, HVAC, power, communications, and plumbing systems.

Using Revit to develop In-house construction documents.

Understanding how survey and engineering data and drawings are developed and their application and are related to construction; making modification to features for various Civil works or military projects.

Original Posting Date:

While subject to change based on business needs, Leidos reasonably anticipates that this job requisition will remain open for at least 3 days with an anticipated close date of no earlier than 3 days after the original posting date as listed above.

Pay Range:

Pay Range \$48,100.00 - \$86,950.00

The Leidos pay range for this job level is a general guideline only and not a guarantee of compensation or salary. Additional factors considered in extending an offer include (but are not limited to) responsibilities of the job, education, experience, knowledge, skills, and abilities, as well as internal equity, alignment with market data, applicable bargaining agreement (if any), or other law.
