Company: MultiCare

Location: United States

Category: life-physical-and-social-science

You Belong Here.

At MultiCare, we strive to offer a true sense of belonging for all our employees. Across our health care network, you will find a dynamic range of meaningful careers, opportunities for growth, safe workplaces, and flexible schedules. We are connected by our mission - partnering and healing for a healthy future - and dedicated to the health and well-being of the communities we serve.

FTE:1.0 **Shift:** Day **Schedule:** M-F

Position Summary

The Lab Strategy Manager reviews and assesses applicable financial, clinical, and operational data, along with evidence-based literature, to assist in the selection, evaluation, monitoring, analysis and implementation of cost-effective products, technologies, services and processes that support strategic sourcing for the lab. The Manager makes presentations and recommendations to key stakeholders, staff and leadership that achieve the best value for NWCL and MultiCare.

Responsibilities

Recommends the most appropriate and efficient method for formation of strategic sourcing initiatives/agreements for NWCL & MultiCare from the analysis of institutional spend, end-user activity and the marketplace

Develops, implements and manages a value analysis business plan, strategies, goals, and objectives including a communication plan for internal and external marketing of the value analysis program related to lab

Negotiates strategic sourcing agreements and any changes in vendor contracts in accordance with NWCL, MHS, state, and federal rules and regulations and for the maximum benefit to NWCL & MHS

Determines appropriate resolution to problems that may arise during the strategic sourcing contracting processes by mediating disputes between NWCL, MHS, and the vendor/contractor

Develops and maintains awareness of changing commodity-related business trends in the marketplace and the possible impact to the hospital system

Develops and composes bids specification assuring that NWCL, and MHS stakeholder needs, are addressed

Creates support structures within value analysis to promote clinical quality, efficiency, compliance, and productivity

Requirements

Advanced degree (MS/MBA/JD) required

Seven (7) years of experience to include direct management of supply chain contracts, developing, implementing, operating or maintaining analytics for contract processes and/or business support required

Supply chain analytics experience strongly preferred

Healthcare and laboratory experience preferred

Our Values

As a MultiCare employee, we'll rely on you to reflect our core values of Respect, Integrity, Stewardship, Excellence, Collaboration and Kindness. Our values serve as our guiding principles and impact every aspect of our organization, including how we provide patient care and what we expect from each other.

Why MultiCare?

BelongingWe work to create a true sense of belonging for all our caregivers

Mission-drivenWe are dedicated to our mission of partnering for healing and a healthy future and the patients and communities we serve

Market leadership: Washington state's largest community-based, locally governed health system

Employee-centric: Named Forbes "America's Best Employers by State" in 2023

Technology: Most Wired health care system 15 years in a row

Leading research: MultiCare Institute for Research & Innovation, 40 years of groundbreaking, clinical and health services research in our communities

Lifestyle: Live and work in the Pacific Northwest - offering breathtaking water, mountains and forest at every turn

Pay and Benefit Expectations

We provide a comprehensive benefits package, including competitive salary, medical, dental and retirement benefits and paid time off. As required by various pay transparency laws, we share a competitive range of compensation for candidates hired into each position. The pay scale is \$98,634.00 - \$143,229.00 USD. However, pay is influenced by factors specific to applicants, including but not limited to: skill set, level of experience, and certification(s) and/or education. If this position is associated with a union contract, pay will be reflective of the appropriate step on the pay scale to which the applicant's years of experience align. Associated benefit information can be viewed [here](#).
