

## Lead Install AV Technician

[Apply Now](#)

Company: All A-V Services

Location: Fayetteville, Arkansas

Category: other-general

All A-V Services is hiring a Lead Install AV Technician to join our team. As the Lead Install AV Technician, you will be responsible for executing and supervising audiovisual installation projects, ensuring they are completed efficiently and to high standards.

Your ability to provide exceptional client service, coordinate with team members, and demonstrate technical expertise will be key in this role. We are seeking a candidate who is passionate about AV and thrives in finding solutions to AV problems.

### Requirements

#### Key Requirements:

3-5 years of experience in audiovisual installation, including video conferencing, audio

systems, video boards, and control systems

Strong knowledge of automation systems such as QSYS, RTI, and Crestron

Proficiency in rack fabrication, cable termination, and system maintenance

Ability to troubleshoot video and audio signal flow

Experience in performing needs assessments for different types of spaces

Ability to independently run live rental events, including equipment setup and operation

Good understanding of XTEN-AV Design Software and ability to read drawings/blueprints

Excellent communication and interpersonal skills

Ability to work independently with minimal guidance

Strong problem-solving skills and a proactive mindset

Physical requirements: ability to lift over 50 pounds, valid driver's license, and clean background and driving record

Preferred Qualifications:

Associates degree in a relevant field

Continuing education and willingness to travel occasionally

If you are a dedicated and skilled AV technician with the drive to provide exceptional service and deliver outstanding results, we would love to hear from you. Relocation package opportunities are available for the right candidate.

Benefits

401K, and possible health benefits.
