

Maintenance (Multicraft) Technician

[Apply Now](#)

Company: Mauser Packaging Solutions

Location: Valparaiso

Category: other-general

Essential Duties and Responsibilities:

Follow, without exception, all work instructions and safety policies, including use of all PPE and safety equipment

Examine machine controls to install plate changeovers and start-up machines for production needs when required

Perform routine preventive maintenance checks on all production equipment and machinery

Repair basic mechanical components and replace parts on machines such as bearings, filters, wiring, valves, gauges and switches

Observe and listen to mechanical devices in operation to locate causes of the problem

Dismantle devices to gain access to and remove defective parts

Adjust functional parts of devices and control instruments

Inspect used parts to determine changes in dimensional requirements

Lubricate and clean machinery and support equipment to maintain housekeeping and preventive maintenance standards within the plant

Document and track changeover times and record

Accomplish all work orders to maintain safety; reduce downtime; decrease scrap; improve quality production; and improve plant efficiency

Follows all safety rules and procedures including the Lockout/Tagout program, housekeeping, and 5S standards and observes the operations to ensure a safe work environment

Perform other related duties as assigned

Qualifications:

Ability to solve practical problems and deal with a variety of concrete variables in situations where only limited standardization exists. Ability to interpret a variety of instructions furnished in written, oral, and diagram or schedule form.

To perform this job successfully, an individual must be able to perform each essential duty satisfactorily. The requirements listed below are representative of the knowledge, skill, and/or ability required for satisfactory performance. Reasonable accommodations may be

made to enable individuals with disabilities to perform the essential functions.

Education and/or Experiences

High school diploma or general education degree (GED)

3-5 years maintenance experience in a manufacturing environment; or an equivalent combination of training and experience

Tooling and repair experience highly preferred

Experience with injection molding machines is highly preferred

Ability to interpret documents such as procedure manuals, blueprints, schematics, charts, diagrams, etc.

Ability to use precision measuring devices including amp meters, electric meters, and hydraulic gauges

Basic understanding of systems, equipment and schematics

Ability to solve practical problems and deal with a variety of concrete variables in situations where only limited standardization exists. Good troubleshooting skills

Basic mathematical skills used to add, subtract, multiply, divide, and use decimals and fraction
