Company: Blue Signal Search

Location: United States

Category: other-general

Maintenance Superintendent Our client's organization is a leader in the production of essential minerals and boasts a significant global presence in the market. Their commitment to safety, efficiency, and social responsibility has been the cornerstone of their success. The company offers dynamic career opportunities with the potential for growth and advancement in a supportive and collaborative work environment. This leading global resource organization is in search of a Maintenance Superintendent. In this position, you will take a leading role in overseeing the refurbishment and dependability of crucial mobile mining equipment throughout North and South America. This position will require a combination of strategic planning, technical expertise, and leadership to ensure our mining operations maintain the highest standards of reliability and safety. This Role Offers: The possibility to work remotely up to 100% of the time from anywhere in the U.S. except CA, CT, IL, KS, KY, MS, MI, NH, NY, NC, OK and SC (ADDITIONAL States may be included). The position will require occasional travel to the Phoenix corporate offices and/or site locations. If there is a future transition to on-site work, the company will provide relocation assistance. Attractive salary range tailored to match experience, qualifications, and job-related skills, with eligibility for performance-based incentives. Comprehensive benefits package including generous PTO, health and life insurance, 401K match, and more. Tuition assistance and employee development programs. Globally recognized industry leader. Strong opportunity for growth within the company. Eligibility for annual long-term incentive programs, subject to approval and align with company policies. Focus: Formulate tactical and strategic objectives for enhancing mobile mining equipment reliability. Direct the

administration of the equipment rebuild program, emphasizing haul trucks, dozers, and loaders. Offer technical support to resolve critical production issues. Recommend and enforce reliability best practices during equipment rebuilds. Standardize procedures for mobile mining equipment maintenance. Ensure the effective use of standardized rebuild procedures and processes. Carry out additional duties as necessitated by operational demands. This role requires fluency in English and effective communication skills. Openness to a potentially high-stress work environment. Regular travel within the US and internationally. Exposure to a variety of environmental conditions, including temperature extremes and industrial hazards. The role involves physical activities such as standing, climbing, and occasionally lifting moderate weights. Skill Set: A High School diploma or GED with a least (7) years of operational experience, including a leadership position; OR a Bachelor's degree and three (3) years of related experience Proficiency in maintenance and operational procedures for heavy mining equipment. Strong command over MS Office Suite, particularly Word and Excel. Demonstrated skill in supervising, training, and motivating personnel. Outstanding verbal and written communication abilities. Capacity to oversee various operations, projects, and activities efficiently. Commitment to safety, with the ability to recognize hazards and adhere to safety practices. Specific expertise in mobile maintenance of mine haul trucks
