SOW for developer (s) working on PHP and developing web applications

Job Summary :

We are seeking a talented PHP/Laravel Developer specialized in developing web applications to join our team.

The ideal candidate will be responsible for developing and maintaining web applications using Laravel framework. You will be working closely with our team to ensure system consistency and improve user experience.

Job skills & Qualifications:

Proven experience as a PHP Laravel Developer

Strong understanding of PHP, Laravel framework and MVC design patterns

Proficient in front-end technologies such as HTML5, CSS3, Javascript

Ability to work both independently and collaboratively in a fast-paced environment

Experience with relational databases such as MySQL

Experience building and consuming RESTful APIs and web services

Excellent problem solving skills and attention to detail

Strong communication skills

Prefered skills:

Experience with version control systems such as Git

Understanding of Agile development methodologies

Experience with cloud platforms such as AWS and Azure

Essential Duties:

Develop, implement and maintain PHP Laravel web applications

Update legacy laravel framework to current release

Update code from php 7.x to 8.x

Troubleshoot and debug existing applications to ensure optimal performance

Write clean, efficient and well documented code

Collaborate with cross functional team to define, design and ship new features
