

## Outlook 365 Platform Engineer

[Apply Now](#)

Company: Crescens Inc.

Location: New York County, New York

Category: architecture-and-engineering

Job title: Outlook 365 Platform Engineer

Location: Mt Laurel, NJ or New York, NY or Toronto, ON or London, ON (2 days/week onsite)

Duration: Long term

Type: C2H / FTE Canada

Job Description:

Design end-user desktop and/or mobile platforms and their corresponding management

policies and infrastructure.

Define and design support and control mechanisms for all such platforms.

Assess and select product capabilities and features, ensure multiple technologies are not providing overlapping capabilities, driving down technology complexity, and driving cost reductions.

Create high level design documents, including estimated hardware, detailed program specifications, and resourcing costs.

Interface with the security controls and risk teams.

Provide 3rd level consultation requests and support.

Skills and Experience Required:Required:

8+ years of experience.

Recent in-depth experience with Microsoft 365 (M365) suite, in particular Office 365 (O365)

Recent in-depth experience with Microsoft Intune and Azure Cloud Platforms

Systems internal knowledge of Microsoft Windows Operating Systems, particularly Windows 10

Knowledge of Microsoft System Center Configuration Manager (SCCM) and Build Automation

Advanced scripting skills and knowledge of Windows PowerShell

Education: BS in computer science or a related field
