

Project Manager (Master Data Management/ Data Governance)

[Apply Now](#)

Company: GyanSys Inc.

Location: Indianapolis

Category: other-general

GyanSys is looking for a Project Manager for its direct client in Indianapolis, IN

Solid PM skills, pushing the team through the analysis, and holding people accountable will be key.

Awareness around implementing DAMs, PIMs (currently Step Stibo), and integrating this data efficiently with middleware (Jitterbit, Webmethods or the like)

Support creation of a presentation to leadership which summarizes the current data model and its pain points.

Analysis of current implementation of product related data within Digital Asset Management and PIM with an eye toward how this data is integrated with other systems.

Knowledge about product data and Master Data Management or Data Governance would be a good fit.

PMP Certification required.

Bachelor s degree required.

About GyanSys

GyanSys is a leading mid-tier systems integrator supporting global enterprise customers.
