ABOUT YOU

Are you passionate about the environment and ready to join an inclusive work environment, committed to leading new ideas and pathways, and to delivering value? If the answer is, "Yes!" then we have an exciting career opportunity for you as a Software Project Manager based remotely in the are we? We are Montrose, a global environmental services provider offering environmental planning and permitting, measurement and analytical services, and environmental resiliency and sustainability solutions. Our qualified engineers, scientists, technicians, associates, and policy experts are proud of our collective expertise and the collaborative nature of our approach to helping clients. We strive to optimize environmental resiliency in a way that effectively complements our clients' decision-making and operations and efficiently fulfills their project requirements.

We have over 90 offices across the United States, Canada, Europe and Australia and approximately 3,500 employees – all ready to provide solutions for environmental needs.

WHAT WE CAN OFFER YOU

As a key member of our Montrose team, you can expect:

Competitive compensation package: annual salary ranging from \$70k-\$85k

Competitive medical, dental, and vision insurance coverage

401k with a competitive 4% employer match

Mentorship and professional development resources to advance your career

Direct exposure to our industry's leading experts who are solving the world's toughest environmental challenges

An entrepreneurial environment where you can learn, thrive and collaborate with talented colleagues

Opportunities to engage and contribute in our Diversity, Fairness and Inclusion and Women Empowering Leadership employee resource groups

Progressive vacation policies, company holidays and paid parental leave benefits to ensure work/life balance

A financial assistance program that supports peers in need, known as the Montrose Foundation

Access to a student loan planning tool to optimize your student loan payoff plans and compare student loan rates with lenders.

A DAY IN THE LIFE

Reporting to the VP of Software Solutions, this role supports the Sensible EDP team. This role will be responsible for a full range of activities including:

Lead and manage the end-to-end lifecycle of complex software development projects.

Collaborate with product managers to align software development with product vision and company objectives.

Coordinate with cross-functional teams, including software developers, designers, QA, and other stakeholders, to ensure timely delivery of projects.

Define project scopes, goals, and deliverables that align with business objectives.

Develop detailed project plans to track progress and adjust as needed.

Manage project budgets, resource allocation, and scheduling.

Ensure software deliverables meet quality standards and customer expectations.

Implement risk management strategies to mitigate potential project risks.

Communicate project status, issues, and successes to stakeholders and senior management.

Foster a collaborative and productive environment for the development team.

YOUR EXPERTISE AND SKILLS

To perform this job successfully, individuals must be able to perform each duty and responsibility satisfactorily. The requirements listed below are representative of the knowledge, skill, and/or ability required.

Required Qualifications:

Bachelor's or Master's degree in Computer Science, Engineering, or related field.

Minimum of 5 years of experience in software project management.

Proven experience in product management or working closely with product management teams.

Strong understanding of software development life cycle (SDLC) and agile methodologies.

Excellent leadership, communication, and organizational skills.

Ability to manage multiple projects simultaneously in a fast-paced environment.

Strong problem-solving skills and analytical abilities.

Familiarity with project management tools and software.

Preferred Qualifications:

Project Management Professional (PMP) or similar certification.

Experience with remote and multicultural teams.

The above statements are intended to describe the general nature of work being performed by people assigned to this classification. They are not to be construed as an exhaustive list of all responsibilities, duties and skills required of employees so classified. If you are an individual with a disability and require a reasonable accommodation to complete any part of the application processor are limited in the ability or unable to access or use this online application process and need an alternative method for applying, you may contact 949-988-3500 or for assistance.

MAKE THE MOVE TO ACCELERATE YOUR CAREER

We are going to be blunt – the way we work may not suit everyone. We are a fast-

paced, dynamic and high-growth company. You your own boss, but you will get tons of guidance and plenty of support from talented, super-smart colleagues and its service providers. Therefore, if freedom, autonomy, and head-scratching professional challenges attract you, we could be the perfect match made in heaven.
