Title:

PSAB: Journeyman Electrician (Secret Clearance)

Belong, Connect, Grow, with KBR!

Program Summary

The KBR PSAB Program provides comprehensive BASE OPERATING SUPPORT-INSTALLATION (BOS-I) services at Prince Sultan Air Base (PSAB) in the Kingdom of Saudi Arabia (KSA). These services are delivered to support the 378 Air Expeditionary Wing (AEW), mission partners, and tenant units, encompassing a diverse range of personnel including transient, temporary duty (TDY), permanent party, and rotational personnel. Additionally, the program extends its services to encompass five (5) remote Army sites within PSAB. This program ensures the seamless functioning of operations, maintenance, and support activities essential for the sustained mission readiness and operational effectiveness of PSAB and its associated units.

Job Summary

This position shall function as an integral team member, cooperating with and supporting U.S. deployed forces, Kingdom of Saudi Arabia (KSA) and shall share information with other integral team members as required. As a Journeyman Electrician, responsibilities include ensuring Installation, maintenance, and repairs interior, exterior, overhead, underground electrical power distribution systems and components such as capacitor banks, vacuum and air break switches, breakers, transformers, fuses, lighting fixtures, receptacles, and motors. Inspecting, tests, and services overhead line conductors and direct buried cables, and

those in underground ducts and conduits as well as inspects powerline poles for pest damage, deterioration, and loose hardware

Roles and Responsibilities

As a Journeyman Electrician, you would manage and work with a diverse, international, and multi-skilled workforce as well as work hand in hand with power production/generation personnel. Electrical lead shall ensure personnel are adequately trained, and personnel assigned to all tasks have the requisite knowledge and skills to meet minimum performance requirements as well as comply with all applicable laws and regulations. Responsible for proper utilization, accounting, and safeguarding of all government and contractor provided property (e.g., to include government facilities, equipment tools, information, and Data).

Ensure required contractual submittals are provided to the government.

Ensure the successful delivery of services to 4,000 personnel, plus or minus 10%, at all times.

Ensure compliance with all US laws, Saudi Labor Law, US EPA Guidelines, Final Governing Standards (FGS), Overseas Environmental Baseline Guidance Document (OEBGD), US Building Codes, Department of Defense (DoD) Unified Facilities Criteria (UFC), National Electric Code (NEC), National Electric Safety Code (NESCC), Occupational Safety and Health Administration (OSHA) standards, National Fire Protection Association (NFPA) and Institute of Electrical and Electronics Engineering (IEEE) standards. In addition, ensure site activities comply with applicable US, DoD, and Host Country codes and standards for Building & Fire codes concerning health, safety, and the environment in the design and construction of real property facilities at all times.

Performs other duties as assigned.
