About SCPMG

Southern California Permanente Medical Group (SCPMG) is a physician-led partnership with strong values that support a patient-centered and evidence-based approach to medicine.

Provides our physicians with the resources and support systems needed to ensure every physician can focus on practicing medicine, connecting with one another, and providing the best possible care to their patients.

Per Diem

Non-benefitted with a flexible schedule, hourly pay, malpractice insurance and tail coverage provided.

About the area

With its medical center northwest of Los Angeles and its scope reaching as far north as Ventura, the Woodland Hills/Ventura County service area offers an impressive range of experiences. Great weather enables year-round surfing, hiking, golf, and other outdoor sports. And beyond our area are Los Angeles to the south and Santa Barbara to the

north, for world-class dining, entertainment, and cultural activities.

Working here

The Woodland Hills/Ventura County area is geographically diverse—reaching from the San Fernando Valley north of Los Angeles to Ventura County along the Pacific Ocean. Our area offers both the urban/suburban experience of the Woodland Hills Medical Center and the distinctly bi-cultural, small-town feel of the Ventura County medical office. Yet, at our core is one culture—characterized by the partnering and teamwork of our medical staff, the high level of physician engagement, and the focus on maintaining a highly evolved model of care. A family medicine residency program at the medical center adds an academic vibrancy. Strong emphasis is placed on wellness and interaction, with formal and informal events, potlucks, and other social activities. A robust on-boarding program ensures that new hires can quickly integrate, professionally and personally, forming lasting bonds and furthering the area's collegial environment.

Qualifications

Board Certified or Board Eligible

Outpatient Sleep Medicine only with no Pulmonary Critical Care nor ICU requirement
