Company: Carl's Jr.

Location: United States

Category: other-general

POSITION SUMMARY

The Manager of Quality Assurance is responsible for the Quality Programs and ensures all products entering the CKE system meet compliance requirements. This role may assist with the commercialization of products used in the supply chain.

ESSENTIAL FUNCTIONS

Displays outstanding leadership skills; provides coaching, guidance, and development advice to current QA and junior staff

Communicates with suppliers regarding CKE quality standards and establishes relationships to maintain business continuity in regard to QA related issues

Utilize all available data and experience to proactively address product compliance issues and minimize quality related incidents

Maintains and approves supplier quality documentation using Intelex software including supplier approvals, probation program, and supplier disapprovals

Creates and maintains corporate supplier quality and food safety standards for risk mitigation based on most current regulatory and industry requirements and/or expectations.

Confirms product specification compliance by performing product testing and supporting the product compliance program

Manage supplier documents for GS1-128 compliance using FoodLogiQ software

Performs other duties and/or special projects as assigned in response to changing business conditions and/or requirements

Communicate data regarding supplier approval and compliance monitoring

Develops and implements annual QA objectives

POSITION QUALIFICATIONS/CORE COMPETENCIES

1-3 year of experience in manufacturing or related experience

BA/BS Degree required in technical field: Food Science, Biology, Chemistry

Must have thorough knowledge of modern Food Safety Systems: Global Food Safety Initiative (GFSI), British Retail Consortium (BRC) food safety standards

Must have excellent written and oral communication skills with the ability to communicate successfully with operations-level staff and “C” levels interchangeably

Must display strong analytical and organizational skills and have the ability to identify and implement process improvement strategies with positive business results

Must have strong work ethics and a high level of confidentiality to ensure proper handling of sensitive information

Must possess approximately six (5) years of any combination of experience and/or education that demonstrates a commanding knowledge of the food processing environment in QA or R&D Management positions

WORK ENVIRONMENT

Corporate Office fast-paced, high volume of activity, and a deadline-driven environment

PHYSICAL DEMANDS

Sitting for extended periods of time, using a telephone, typing and/or operating a computer and/or mouse

Travels as needed approximately twenty (20)% – thirty (30)% International
