We are currently looking for a Quality Engineer for a leading manufacturing company in Troy, Alabama. Our client is seeking someone skilled in Quality Engineering from a Manufacturing environment. This is a permanent position with long term career growth for the right candidate. Please see below job details and requirements to be considered.

NOTE: Relocation assistance is provided for the right candidate!

SUMMARY/ OBJECTIVE:

The Quality Engineer is a key factory staff member responsible for developing and maintaining programs, processes, and metrics that support the Quality Assurance program within the manufacturing facility.

ESSENTIAL DUTIES & RESPONSIBILITIES:

Support the initiatives of the Quality Assurance department.

Provide supply chain support in the development and maintenance of a supplier rating system and supplier evaluation.

Develop and provide statistical analysis of quality performance, problems, and recommend solutions for both legacy and new products.

Provide monthly/daily reports and analysis as requested.

Develop control plans, checklists, and inspection procedures for new and existing products.

Train CNC personnel on inspection techniques.

Develop gauging requirements for new and existing products.

Actively participate in Material Review Board (MRB) activities.

Perform all other tasks assigned by department management.

Support the implementation of a Statistical Process Control environment.

Support continuous improvement activities geared towards the elimination of process variation, nonconformities, and cost reduction.

Perform internal ISO audits of processes and activities throughout the organization and prepares respective audit reports.

MINIMUM JOB REQUIREMENTS

Bachelor's Degree in Quality, Mechanical, or Industrial Engineering.

Demonstrable track record over a minimum of 5 years of successful work in a fast-paced manufacturing environment.

Familiarity with Six Sigma methodologies.

Display knowledge of ISO standards.

Must have senior management potential/interest.

Proficiency in Microsoft Office (Word and Excel) and Minitab.

Strong project management experience.

Cross-functional team builder/player with high levels of professionalism, integrity, and enthusiasm.

Excellent communication skills, both verbal and written.
