Diversity - Innovation - Caring - Global Collaboration - Winning Spirit - High Performance

At Boston Scientific, we'll give you the opportunity to harness all that's within you by working in teams of diverse and high-performing employees, tackling some of the most important health industry challenges. With access to the latest tools, information and training, we'll help you in advancing your skills and career. Here, you'll be supported in progressing – whatever your ambitions.

Specialist I, Quality

Serve as Quality representative on product/process quality initiatives in support of manufacturing activities and other quality goals and priorities. Collaborates cross-functionally in the execution of projects designed to improve the compliance, efficiency and effectiveness of specific quality system elements. Provides guidance and/or mentorship in CAPA systems and related processes.

Support departmental or cross-functional quality initiatives or projects by applying technical and quality system principles.

Apply sound, systematic problem-solving methodologies in identifying, prioritizing, communicating, investigating and resolving quality issues.

Assist site's leadership in the collection, review, trending and/or reporting of quality data in support of Management Review.

Provide direction and mentoring to CAPA/NCEP owners, including timely tracking, follow up and closure of NCEPs/CAPAs in their different phases.

Interpret applicable internal and external regulatory requirements, regulations, and standards, as applicable.

Participate cross functionally in global quality system projects and/or harmonization initiatives.

Participate in internal and/or external audits as required by Management.

Educate functional areas on quality system requirements.

Other duties as necessary or required by the department or site.

Management Requirements

Bachelor's Degree in science or Engineering preferred and 3+ years of related work experience.

Experience working in manufacturing area, Neuromodulation preferred.

Understanding of product design concept with applicability on manufacturing environment.

Knowledge in Quality Systems and Identification Traceability Systems (e.g. eCAPA, Windchill, MES, SAP, IQS, etc).

General knowledge in quality metrics.

Experience in problem solving activities, identification of root causes and understanding corrective and preventive actions.

Willing to work different shifts (1st, 2nd, 3rd and/or weekends) as needed

Fully Bilingual

Requisition ID: 574337

Boston Scientific maintains a prohibited substance free workplace. Pursuant to Va. Code § 2.2-4312 (2000), Boston Scientific is providing notification that the unlawful manufacture, sale, distribution, dispensation, possession, or use of a controlled substance or marijuana is prohibited in the workplace and that violations will result in disciplinary action up to and

including termination.

Please be advised that certain US based positions, including without limitation field sales and service positions that call on hospitals and/or health care centers, require acceptable proof of COVID-19 vaccination status. Candidates will be notified during the interview and selection process if the role(s) for which they have applied require proof of vaccination as a condition of employment. Boston Scientific continues to evaluate its policies and protocols regarding the COVID-19 vaccine and will comply with all applicable state and federal law and healthcare credentialing requirements. As employees of the Company, you will be expected to meet the ongoing requirements for your roles, including any new requirements, should the Company's policies or protocols change with regard to COVID-19 vaccination.
