Risk Business Analyst

Consultant - US

115715BR

Job Description

Infosys is seeking a **Risk Business Analyst** in Financial services Domain. As a consultant, you will interface with key stakeholders and apply your technical proficiency across different stages of the Software Development Life Cycle including Requirements Elicitation, Application Architecture definition and Design. You will play an important role in creating the high-level design artifacts. You will also deliver high quality code deliverables for a module, lead validation for all types of testing and support activities related to implementation, transition and warranty. You will be part of a learning culture, where teamwork and collaboration are encouraged, excellence is rewarded, and diversity is respected and valued.

Candidate must be located within commuting distance of **Jersey City, NJ / Dallas, TX / Tampa, FL or Atlanta, GA** or be willing to relocate to the area. This position may require travel to project locations.

Required Qualifications:

- Bachelor's degree or foreign equivalent required from an accredited institution. Will also consider three years of progressive experience in the specialty in lieu of every year of

education.

- At least 4 years of experience with Information Technology.
- Experience as an IT BA – working on Risk and compliance Domain.

Preferred Qualifications:

- At least 6 Years of experience as an IT BA – working on Risk and compliance Domain
- Knowledge of PL/SQL for data analysis
- Regulatory skills in Basel 3, CCAR etc would be preferred.
- Extensive experience with Risk and compliance applications
- Actively aid the consulting team in different phases of the project including problem definition, effort estimation, diagnosis, solution generation, design and deployment.
- Perform complex programming functions, assistance, and technical advice including design architecture, configuration, writing, testing, and documentation to complex programming of client systems as assigned
- Strong written and verbal communication skills
- Strong client-facing presentation and communication skills
- Strong understanding of common software development practices
- Strong written and verbal communication skills
- Strong client-facing presentation and communication skills
- Strong understanding of common software development practices
- Good Analytical skills
- Ability to work in team in diverse/ multiple stakeholder environment
- Experience and desire to work in a Global delivery environment

The job entails sitting as well as working at a computer for extended periods of time. Should be able to communicate by telephone, email or face to face. Travel may be required as per the job requirements.
