

Senior Controls Engineer

[Apply Now](#)

Company: Zobility

Location: Greer, South Carolina

Category: architecture-and-engineering

Job Description:

Creating and commissioning industrial controls systems, PLC software design, and HMI screens, for different industries and environments.

Responsibilities:

Responsible for PLC/HMI code development, code installation, debug on job site, and commissioning of the complete system.

Conducting the peripheral device programming, machine PLC programming, coordinate the machine debug, power-up, and machine validation with build and electrical teams.

Ensure that systems are designed and programmed to customer and/or DYAG build specifications using standard techniques and approaches.

Travel to customer sites for installation and startup of systems.

Skills/Experience Required:

2+ years of Controls Engineering/PLC/HMI programming experience

2+ years of Rockwell Allen Bradley (ControlLogix OR RS Logix OR Studio 5000) or Siemens Step 7 (TIA Portal, WinCC) PLC programming experience.

Other PLC platforms are helpful as well such as Omron, Mitsubishi, Client, etc.

Experience with hardware design using AutoCAD, Promise-E or ePlan is a plus.

The ability to program/write code/ladder logic from scratch

Prior experience with automotive manufacturing integration and commissioning.

Prior experience programming within customer-defined standards and templates

Proficient with a variety of field bus networks including but not limited to Device Net, Ethernet I/P, Profibus, ProfiNet, etc. a plus.

Education:

AS or BS in Engineering. Ideally, Computer Science, Mechatronics, Electrical Engineer or similar.

Equivalent years of experience can be substituted for a degree.

We offer attractive, competitive compensation and benefits including, medical, dental, 401k, short-term disability, AD&D, tuition reimbursement, and more. If you take pride in your work and are committed to personal and professional success, let's talk. Please visitto learn more.
