

Senior Database Administrator

[Apply Now](#)

Company: Triveni IT

Location: Jersey City

Category: other-general

Job Description:

We are seeking a highly skilled Senior Database Administrator with a primary focus on Oracle database systems. The ideal candidate will possess extensive experience and expertise in Oracle database administration, with a proven track record of managing complex Oracle environments.

Key Responsibilities:

- 1 . Manage and maintain Oracle database systems, ensuring optimal performance, availability, and security.
- 2 . Design, implement, and support database solutions tailored to meet the organization's needs and requirements.
- 3 . Perform database tuning, optimization, and troubleshooting to address performance issues and ensure efficient operation.
- 4 . Develop and implement backup and recovery strategies to safeguard critical data and minimize downtime.
- 5 . Collaborate with cross-functional teams to integrate Oracle databases with various applications and systems.
- 6 . Stay current with emerging technologies and best practices in Oracle database

administration.

- 7 . Provide mentorship and guidance to junior team members on Oracle database administration best practices.

Qualifications:

Bachelor's degree in Computer Science, Information Technology, or related field.

Minimum of 8 years of experience in Oracle database administration.

Proficiency in Oracle database installation, configuration, and maintenance.

Strong understanding of Oracle database architecture, including RAC and Data Guard.

Experience with performance tuning, SQL optimization, and troubleshooting in Oracle environments.

Excellent communication and interpersonal skills, with the ability to collaborate effectively with stakeholders at all levels.
