We have a well-established local presence and relationships with governments and regulators in more than 100 countries around the world, and create value by adhering to the highest standards of service, integrity, and responsibility. IGT has approximately 10,500 employees. For more information, please visit .

About the Role

IGT PlayDigital is looking for an experienced yet hands-on DevOps Engineer able to thrive in a fast-growing business where change is constant. Reporting to the DevOps Manager, you will have full ownership of delivering customer value for DevOps. As the critical interface between development and operations teams, you will be an evangelist for the DevOps culture.

What You'll Do

Provide operational support to ensure the availability of business systems

Manage and escalate risks and blockers

Used to working in agile and Kanban methodologies

Adhere to industry best practices on security, protecting our customer's data and business IP

Identify and implement opportunities to automate processes and practices

About You

Pragmatic in your approach, and maintain perspective

A good listener, and clear communicator

At home in an agile environment

A team player

Able to evolve yourself as the business grows

Worked in a web-based, high transaction business

Technical enough to articulate complex concepts

You accept ownership of business problems, ensuring outcomes/delivery across teams.

Able to articulate deliverables as 'value streams' and business outcomes.

Live our principles of learning faster, emphasis with our customers, communicate clearly, take appropriate risks, and think longer term

What We're Looking For

Expert knowledge of AWS cloud environment

4+ years working in a DevOps role

Experienced with monitoring tooling products like ELK, Prometheus and grafana

Expert knowledge of Linux specifically CentOS and RHEL

Knowledge of PHP and MYSQL

Expereince building and deploying high traffic production environments

Advanced skillset around automation via IaC and configuration management using Terraform, packer and ansible

Experienced in CI/CD specifically using Jenkins

Proven communication skills, which you will use to interface with architecture, DBA and TechOps teams

Good Knowledge of Kubernetes clusters

Diversity, Equity and Inclusion

We believe that a team of unique individuals creates a dynamic, modern and fun work environment. Whether language, location or life experience, IGT PlayDigital recognizes and celebrates differences between team members. Our colleagues enjoy inclusive engagement through our 7 global Employee Impact Groups; Women's Inclusion Network (WIN), Advancing Cultural Education (ACE), PRIDE, NEXGEN, Wealth of Wisdom (WoW) and Superabilities at IGT. We're also the three-time Top-Ranking Gaming Supplier in the All-In Diversity Project; a Best Place to Work according to the Human Rights Campaign and the Disability Equality Index; and the 2023 D&I Award winner at the Women in Gaming Diversity Awards-London.
