## Senior Electrical Engineer

Our client, an award-winning pioneer in the Construction, Design, and Technology Solutions industry, is celebrated for their forward-thinking and comprehensive solutions to complex construction, engineering, and architectural challenges. With nearly 50 years of history and a prominent footprint in strategic locations across the East and West coasts, they have profoundly influenced national projects and landmarks. Their portfolio showcases their expertise in critical transportation, infrastructure, and public building ventures.

To propel their continued growth and maintain their standard of excellence, they are in search of an innovative and meticulous Electrical Engineer to spearhead their engineering projects, pushing the boundaries of creativity and efficiency.

### **This Role Offers:**

Competitive base salary plus outstanding benefits package including medical/dental/vision, 401K match, education reimbursement, and more.

Relaxed schedule with a generous amount of PTO and paid holidays.

Award winning, accredited learning facility focused on providing a diverse environment.

Rich history with highly experienced leadership and a culture of mentorship and

innovation.

Exciting training and career growth opportunities, both hands-on and formal.

**Focus:**

Collaborate with power utility companies for electrical service setups and enhancements.

Analyze and calculate electrical system requirements for optimal performance.

Design integrated electrical, control, lighting, fire alarm, and low voltage systems.

Plan service rooms, ensure proper utility conduit coordination, and implement grounding and lightning protection.

Utilize Autodesk Revit MEP and AutoCAD for drafting designs, narratives, conducting surveys, and inspections.

**Skill Set:**

Hold a Bachelor of Science in Electrical Engineering.

Possess 6-8 years of relevant electrical engineering design experience, showcasing project leadership and innovation.

Preferred possession of a PE License in Massachusetts.

Experienced in mentoring junior engineers and applying electrical codes effectively.

Skilled in Autodesk Revit MEP, AutoCAD, and similar engineering software.

Strong communication, multitasking abilities, and proactive collaboration skills, especially under pressure and across multiple projects.

**About Blue Signal:**

Blue Signal is a leading executive search firm, specializing in engineering recruitment. Our

engineering recruiting team has expertise placing high-performing talent in areas such as electrical, mechanical, civil, and telecom engineering. Learn more at [bit.ly/46IAFRJ](https://bit.ly/46IAFRJ)
