Senior Engineering Manager (Javascript) New York W2 - 12-month contract Do you dream of shaping the future of how people watch their favorite shows? Are you a passionate leader with a knack for building high-performing JavaScript teams? Then this is the perfect opportunity for you! 5V Video has partnered with a business at the forefront of streaming video technology, with a cutting-edge SDK that delivers seamless playback across devices – from web browsers to smart TVs. Powering the streaming experiences for industry giants. They are looking for a Senior Engineer Manager to join their Video Player Technology team and take the helm in revolutionizing video playback experiences! Key requirements: Proven experience in a leadership role in OTT or similar video related space. Previous hands-on engineering experience. Advanced knowledge of Javascript. Ability to create order and structure for a team. Take the next step in your career and apply today! If any of this sounds interesting and you'd like more information please drop me (Luke Perrins) a message on LinkedIn or, call me on +1 646 741 5077 or email me at [luke.perrins@weare5vtech.com](mailto:luke.perrins@weare5vtech.com) Don't worry if you don't have an updated CV. Just reach out and we'll see if it's a potential fit.
