**Position Title** Senior MuleSoft Developer

**Location** Exton, Pennsylvania

### Job Description:

We are seeking a highly skilled Senior MuleSoft Developer to join our dynamic team. The ideal candidate will have extensive experience in designing, developing, and implementing MuleSoft solutions to integrate various systems and applications. As a Senior MuleSoft Developer, you will play a crucial role in architecting and implementing scalable, efficient, and reliable integration solutions that meet the business needs of our organization.

### Responsibilities:

- 1 . Design, develop, and implement MuleSoft integration solutions to connect disparate systems, applications, and data sources.
- 2 . Collaborate with cross-functional teams to gather requirements, understand business needs, and define integration requirements.
- 3 . Architect integration solutions that adhere to best practices, scalability, performance, and security standards.

- 4 . Configure and deploy MuleSoft applications on cloud platforms such as AWS, Azure, or Google Cloud Platform.
- 5 . Develop custom connectors, APIs, and integration components to extend MuleSoft capabilities.
- 6 . Perform unit testing, integration testing, and troubleshooting to ensure the quality and reliability of integration solutions.
- 7 . Provide technical guidance and mentorship to junior developers and team members.
- 8 . Stay updated with the latest MuleSoft features, tools, and technologies to continuously improve integration solutions.
- 9 . Collaborate with stakeholders to gather feedback, iterate on solutions, and drive continuous improvement.
10. Participate in code reviews, design discussions, and project meetings to ensure alignment with architectural guidelines and standards.

**Requirements:**

- 1 . Bachelor's degree in Computer Science, Information Technology, or related field.  
Master's degree preferred.
- 2 . Minimum of 7+ years of experience working as a MuleSoft Developer, with a focus on designing and implementing integration solutions.
- 3 . Extensive hands-on experience with MuleSoft Anypoint Platform, including Mule runtime, Anypoint Studio, Anypoint API Manager, and Anypoint Exchange.
- 4 . Proficiency in Java programming language and familiarity with related frameworks/libraries.
- 5 . Experience with RESTful and SOAP web services, XML, JSON, and other data formats.
- 6 . Strong understanding of integration patterns, SOA principles, and microservices

architecture.

- 7 . Experience with cloud platforms such as AWS, Azure, or Google Cloud Platform.
- 8 . Excellent problem-solving skills and ability to troubleshoot complex integration issues.
- 9 . Strong communication and collaboration skills with the ability to work effectively in a team environment.
10. MuleSoft certification(s) such as MuleSoft Certified Developer or MuleSoft Certified Architect is a plus.

Join the SIDGS team and be part of an innovative organization that is transforming the way we integrate systems and drive business growth. Apply now to embark on an exciting journey with us!
