Company: Texas Children's Hospital

Location: Houston

Category: computer-and-mathematical

We are looking for a **Senior Oracle FIN Functional Analyst!**

As a Senior Oracle FIN Functional Analyst, you are responsible for supporting Oracle cloud financial application including performing incident triage, requirements analysis, functional system design, configurations, integrated testing, and solutions maintenance. As an application expert, this position is responsible for the successful delivery support of technology solutions in the Corporate Accounting and Finance business areas by following TCH' SDLC and Agile Project Management, Change Control and testing methodologies.

- Responsible for leading a AMS support team for issues and enhancements for the Oracle ERP Cloud core finance applications
- Provide expert solutions in the Oracle ERP Cloud core finance modules: General Ledger Accounts Receivable, Procurement, Accounts Payable, Fixed Assets, Projects, Grants and Cash Management.
- Maintain Oracle configuration changes in respective application areas.
- Work with Business Analysts, Process Owners and End Users to analyze business requirements.
- Support configurations, customization, reports and interfaces, testing and user training.
- Develop test scenarios and test scripts in the impacted solutions to facilitate appropriate integrated testing.
- Implement new system solutions and lead system testing and resolution of system issues per Securitas' project management methodology.
- Work closely with applications Support group to ensure proper post-implementations handoff.

Closely work with the project team members responsible for developing reports, interfaces, data conversion programs, and application extensions.

- Create and maintain system/application documentation (requirements, processes, procedures).
- Provide applications knowledge in evaluating and improving current business processes.
- Provide expertise on new application releases and new functionality in Financial/projects/Grants modules.

- Provide cross-module and cross-functional area integration support.
- Ensure integrity and accuracy of all application system setup information.
- Interact with technical/development professionals in the design and support of required specific customization and interfaces to the Oracle ERP Cloud applications.
- Support in the investigation and resolution of reported system issues. Provide system information, utilize diagnostic techniques, guide the efforts of the production support.
- Follow prescribed methodologies and processes in completing Oracle support and implementation activities.
- Additional duties as assigned by management.

What is required for this role?

- Must be a Functional Professional with 10 years of Oracle Cloud ERP Financials implementations and Production Support (e.g., Oracle ERP Cloud, Oracle R12) and a senior team member, team lead on at least 3 full cycle implementations.
- Experience as a resource in the implementation lifecycle of at least 5 years or 3 Oracle ERP Cloud Application.
- An Oracle Financials applications experience such as: General Ledger (GL), Sub-ledger Accounting (SLA), Accounts Receivables (AR), Accounts Payables (AP), Cash Management, Fixed Assets, Treasury, Procure-to-Pay (P2P),

QUALIFICATIONS

Education

- H.S. Diploma or GED required
- Prefer bachelor's degree computer science or information technology

Experience

- 8 years application design and implementation
- management or project leadership

Experience offset:

A bachelor's degree will substitute for 4 years of experience.

Preferred experience:

- 3 to 4 years of experience in leading a production support and operations using external Application Management and Services (AMS) organization.
- Demonstrated experience as a senior resource leading in the definition of systems strategy, gathering and documenting business requirements, leading fit-gap analysis, as-is and to-be business process designs, functional configuration, testing, client user training
- Senior lead experience on complex, international, multi-currency and multi-organization implementations
- A bachelor's degree in accounting or finance AND Oracle ERP Cloud experience in at least three of these modules: General Ledger, Accounts Payable, Asset Management, or Procurement.
- Must have experience collaborating with stakeholders on business process issues and enhancements
- Must have experience collaborating with technical team on business requirements, design and deployment
- Experience in providing support during month end/weekend/weekdays evening etc.
