Company: Gravity IT Resources

Location: United States

Category: life-physical-and-social-science

Job Summary: Senior – SAP ABAP and Workflow Developer

The Senior-SAP ABAP developer will be part of a team of Developers and Functional Analysts who are engaged in a large-scale effort to design, develop, implement the transition from SAP ECC to S/4 HANA.

The developer needs to be capable of driving ABAP development areas and translate requirements to resolution in a high level of quality, speed, reliability, and efficiency. This is a hands-on role, and the developer will be responsible for designing, implementing, documenting and maintaining standard and/or custom ABAP solutions in an SAP S/4HANA environment.

Role Responsibilities:

Develop and deliver SAP ABAP development related tasks needed for the S/4 HANA enterprise project with ability to flex across different scrums and FICO domain areas.

Independently deliver end-to-end ABAP solutions right from design, coding, testing, and quality assurance of complex SAP ABAP development features and work with business partners to solve critical business complexities.

Work closely together with others and share expertise to ensure delivery success.

Experience and Qualifications:

At least 7 years of SAP development experience in SAP environments in SAP ECC and/or S/4 HANA.

Minimum of 2 full life-cycle SAP project with S/4HANA.

Minimum 5 years of experience with SAP ABAP Technologies and WRICEF development framework (Workflow, Reporting, Interface, Conversion, Enhancements, Forms).

Minimum of 3 years of ABAP experience including and not limited to – ABAP application development language, OData Services, AMDP procedures and CDS views, Object Oriented Development (OO) experience.

Hands-on SAP project experience with expertise in – ABAP on HANA, Workflow, ABAP Data Dictionary, Report Programming, Data Migration, Adobe forms, Authorizations, ALE/IDOC, Workflow, Performance Tuning, ABAP Enhancements & Modifications.

Worked on multiple modules/projects developed for **FICO, MM, WM, IM, PP, SD**

Excellent verbal and written communication skills and ability to translate business processes or concepts into technical requirements.

Bachelor's or Master's degree in computer science, Information Systems, or related field

Nice to have skills:

Knowledge of SAP Screen Personas, Fiori and RAP is nice to have.

Knowledge of Flexible workflow is another nice to have.

Deeper knowledge of S4 HANA.
