Company: Globant

Location: United States

Category: other-general

We are a digitally native company where innovation, design and engineering meet scale. We use the latest technologies in the digital and cognitive field to empower organizations in every aspect. We want you to join us to work for the biggest clients in tech, retail, travel, banking, eCommerce and media, revolutionizing and growing their core businesses while helping them (and you!) stay ahead of the curve. Be part of a company with the most cutting-edge practices and technologies plus a unique team.Now we are looking for a Sitecore Engineer for a Full Time position, hybrid in New York to join our team at Globant!You'll get the chance to: Collaborate closely with cross-functional teams to gain a deep understanding of client requirements, objectives, and business goals. Many of these projects will be large-scale .com initiatives that demand careful planning and execution.Design and implement scalable and maintainable Sitecore solutions that align with the client's brand and strategic vision. Your work will contribute to enhancing the online presence and user experience for these Fortune 500 clients.Develop and customize Sitecore templates, layouts, components, and modules, ensuring that they are tailored to meet the unique needs of each client's project. Your contributions will directly impact the success of these high-profile websites.Integrate third-party systems and applications seamlessly with Sitecore, optimizing the functionality and user experience of these websites.Play a key role in troubleshooting and resolving technical issues related to Sitecore implementations, providing efficient solutions to maintain the reliability and performance of these critical digital assets.Continuously optimize website performance to ensure a seamless user experience, meeting the high standards expected by our Fortune 500 clients.Stay up-to-date with the latest Sitecore trends, technologies, and

best practices, applying your knowledge to push the boundaries of what's possible in the digital realm.Assist in project planning, estimation, and documentation, ensuring that project milestones and deliverables are met to the satisfaction of our clients. What will help you succeed:Master's degree in Computer Science, Information Technology, or a related field.Proven experience as a Sitecore Developer, with at least 5 years of hands-on experience.Strong Experience with Sitecore Experience Accelerator (SXA)Strong proficiency in Sitecore CMS, including Sitecore XP.Experience with Sitecore JSS is a plus.Proficiency in C# and ASP.NET MVC.Experience with front-end technologies such as HTML5, CSS3, JavaScript, and jQuery.Knowledge of UX/UI design principles and best practices is a plus.Familiarity with version control systems (e.g., Git) and continuous integration/delivery (CI/CD) pipelines.Excellent problem-solving skills and attention to detail.Strong communication and teamwork skills.Sitecore certification(s) is a plus.We are ready!
