Additional options for dental and vision benefits, life and disability coverage, flexible spending accounts, supplemental health protection plans (accident, critical illness, hospital indemnity), auto and home insurance, identity theft protection, legal counseling, long-term care coverage, moving assistance, pet insurance and more.

Fertility and family building benefits through Progyny

Free counseling services and resources for emotional, physical and financial wellbeing

Family support, including adoption assistance, child and elder care resources and consumer discounts

401(k) Plan with a 100% match on 3% to 9% of pay (based on years of service)

Employee Stock Purchase Plan

Retirement readiness and rollover services and preferred banking partnerships

Education assistance (tuition, student loan, certification support, dependent scholarships)

Colleague recognition program

Time Away From Work Program (paid time off, paid family leave, long- and short-term disability coverage and leaves of absence)

***Note: Eligibility for benefits may vary by location.***

Our teams are a committed, caring group of colleagues. Do you want to work as a(an) Special Procedure Technologist PRN where your passion for creating positive patient interactions are valued? If you are dedicated to caring for the well-being of others, this could be your next opportunity. We want your knowledge and expertise!

**Job Summary and Qualifications**

As the Special Procedures Technologist, you will be responsible for all aspects of patient radiographic imagery for invasive procedures and for radiologic safety precautions as they pertain to the patient, Special Lab staff and the physician. You will plan and carry out records of all radiologic requirements for quality control. We are an amazing team that works hard to support each other and we are seeking a phenomenal addition like you who feels patient care is as meaningful as we do. We want you to apply now!

**What You Will Do In This Role:**

- \* You will have an understanding of procedures performed in specials Lab.
- \* You will understand sterile techniques and sterile field procedures.
- \* You must have a sound understanding of all Radiation procedures.
- \* You must be able to work with varying technologies such as Meditech, PACS etc.
- \* You will work as a team player and meet the needs of the Special procedures team.

\* You will administer medication and therapies under a physician's direction.

### **What Qualifications You Will Need:**

- \* One year of related experience in diagnostic radiology is preferred.
- \* Associated degree from a school of radiological technology is required.
- \* BLS certification from the American Heart Association or American Red Cross is required.
- \* Current TDH certificate for Certified Medical Technologist is required.
- \* ARRT is preferred.
