Company: Chef Works

Location: Poway

Category: other-general

ABOUT US

Chef Works is the only true global hospitality uniform company designing, manufacturing and distributing uniforms across 90+ countries. As chefs continue to travel, our Chef Works and Bragard brand reputations for quality design and consistency alongside great customer service travels with them. Our roots are in the kitchen evolving to the Front-of-House with a focus on fit-for-purpose garments that are stylish, comfortable and durable and the breadth of range to outfit all hospitality professionals. We love hospitality!

THE ROLE:

Sr. PHP Magento Developer

- Opportunity to design and build a highly integrated E-Commerce platform that is highly enhanced in ways that improve conversion rations and profitability

- Heavy customizations which include AI, real-time content based on user behavior, geo-personalization, and advanced product configurators

- New projects, custom functionality and architect sites with highly enhanced functionality

THE CANDIDATE

Self-motivated Developer with ideas that are unconventional, fresh and smart. An individual with a hands-on, get it done attitude who never hesitates to roll up your sleeves in an instance

to show a team member how its done.

A few of the specific requirements include (see www.chefworks.com/careers for a full job description):

- Minimum of 3-5 years PHP web development experience

- Firm grasp of Git-based source control

- Competent with PHP object-oriented programming

- Proven experience with the Magento / Magento 2 and 3rd Party APIs

- Competent with MySQL-based database concepts

- Familiarity with automated deployment strategies

- Solutions-oriented thinking; always looking for the smart solution to a problem rather than jumping at the first answer

- A passion for staying on top of industry trends and technologies

TOGETHER

We are a small (growing) dynamic team who work together to move the needle on our global E-Commerce initiatives.

LOCATION

This is a hybrid role -- selected candidate will work in our offices in Poway, CA and from home. Relocation assistance is available.
