Rate – £111,115 PAYE – Pro Rata

The main function of a Technical Program Manager is to provide successful definition, implementation, and delivery of complex programs that require cross-functional collaboration and interdependencies across a group of projects and related activities.

Job Responsibilities:

Deliver programs within the constraints of scope, quality, time, and budget and under circumstances involving multiple moderate-probability, moderate-impact risk factors.

Program-level strategic planning, interaction with executive-level management, complex issue resolution, excellent communications, and team-building skills.

Manage a group or groups of internal exempt and matrixed employees and contractors that

serve on the project(s) to deliver systems and systems enhancements that meet specified requirements.

Oversight of project scope definition and management, requirements gathering and documentation, time estimating, project schedule development and tracking, project budget management, project status reporting, issue, and risk management, contingency planning, customer interaction, and communications across multiple organizational levels.

Skills:

Project estimating, project scheduling & tracking, customer interaction and management, and implementation planning in large organizations

Proven people management and team building skills

Demonstrated ability to be flexible/ adaptable in exercising judgment in a changing environment and to manage competing priorities

Proven ability to learn business processes quickly and to work well with business partners at different levels within the organization

Strong ability to assess risk and apply management principles to technology applications/products and business functions

Experience delivering technology and business application solutions in a large-scale, multi-platform systems environment

Experience with software development lifecycle

Education/Experience:

8+ years of experience in a similar role

Extensive experience with software development

PMP or PMI certification
